Name: _____

Date: _____

# 8th Grade CCS Math Vocabulary Crosswords 3

Across

1 An angle on the interior of a plane figure.

3 Not ordered; unpredictable.

6 A procedure that you do over and over, each time building on the previous stage.

9 A figure in which part of the figure has the same shape as the whole figure.

13 The set of x-values that give rise to real y-values.

14 An expression used to calculate a desired result.

15 Indicates how many times the base is to be used as a factor.

16 The result of infinitely many applications of a recursive procedure to a geometric figure.

17 To find the value of an expression.

18 A measure of the steepness of a line on a graph - m - rise over run - pattern of the y-outputs.

Down

2 Mathematical sentences built from expressions using one or more equal signs (=).

4 Identical in shape, although not necessarily the same size.

5 Angles that have the same position on two different parallel lines cut by a transversal.

7 Please Excuse My Dear Aunt Sally-parentheses,exponents,multiply/divide from left to right, add/subtract in order from left to right.

8 A point at which a graph intersects the y-axis.

10 2 points on a line (endpoints) and all the points between them on the line.

11 The set of y-values of a function or relation.

12 A symbol for an unknown number - usually expressed as a letter.

Possible Answers:

corresponding angles, domain, equations, evaluate, exponent, formula, fractal, interior angle, line segment, order of operations, random, range, recursive, self-similar, similar figures, slope, variable, y intercept
