Solve.

hot dog = $1.60	cola = $1.10
order of French-fries = $1.30	ice cream cone = $1.50
hamburger = $2.40	milk shake = $2.50
deluxe cheeseburger = $3.90	taco = $2.60

1. $1.50   What is the total cost of an ice cream cone?

2. $5.88   What is the total cost of a milk shake and a hamburger if the sales tax is 20 percent?

3. $5.00   Sandra wants to buy a deluxe cheeseburger and a cola. How much money will she need?

4. $14.90   Jake purchases a milk shake, an ice cream cone, and a cola. How much change will he get back from $20.00?

5. $1.50   Adam wants to buy an ice cream cone. How much money will he need?

6. $2.60   Michele wants to buy a taco. How much will she have to pay?

7. $4.70   If Billy buys a taco, a hot dog, and a cola, how much change will he get back from $10.00?

8. $6.50   What is the total cost of a hamburger, a hot dog, and a milk shake?

9. $14.70   Paul purchases a milk shake, an ice cream cone, and an order of French-fries. If he had $20.00, how much money will he have left?

10. $1.60   If Jennifer wanted to buy a hot dog, how much money would she need?

11. $4.20   What is the total cost of a cola and a hamburger if there is a 20 percent sales tax?

12. $8.88   What is the total cost of a cola, a hamburger, and a deluxe cheeseburger if the sales tax is 20%?
