

List the multiples for each number.

1.  $67 = \underline{67, 134, 201, 268, 335}$

2.  $5 = \underline{5, 10, 15, 20, 25}$

3.  $96 = \underline{96, 192, 288, 384, 480}$

4.  $6 = \underline{6, 12, 18, 24, 30}$

5.  $3 = \underline{3, 6, 9, 12, 15}$

6.  $1 = \underline{1, 2, 3, 4, 5}$

7.  $33 = \underline{33, 66, 99, 132, 165}$

8.  $12 = \underline{12, 24, 36, 48, 60}$

9.  $70 = \underline{70, 140, 210, 280, 350}$

10.  $8 = \underline{8, 16, 24, 32, 40}$

11.  $47 = \underline{47, 94, 141, 188, 235}$

12.  $48 = \underline{48, 96, 144, 192, 240}$

13.  $22 = \underline{22, 44, 66, 88, 110}$

14.  $7 = \underline{7, 14, 21, 28, 35}$

15.  $43 = \underline{43, 86, 129, 172, 215}$

16.  $52 = \underline{52, 104, 156, 208, 260}$

17.  $64 = \underline{64, 128, 192, 256, 320}$

18.  $65 = \underline{65, 130, 195, 260, 325}$

19.  $15 = \underline{15, 30, 45, 60, 75}$

20.  $42 = \underline{42, 84, 126, 168, 210}$
