Find all words below. Words can be found across, up and down, and diagonally.

- | | | |
|---------------------|---------------------|-----------------------|
| area of a triangle | base of an exponent | circle |
| compound event | compound inequality | distributive property |
| equivalent ratio | event | expression |
| first quartile | geometric figure | numerator |
| perimeter | polygon | probability |
| Pythagorean Theorem | radical sign | regular polygon |
| rhombus | simplify | slope intercept form |
| surface area | volume | y-intercept |
