

Geography Terms Crossword Puzzle 2

Across

- 3 One of the many lines on the global grid that circle the earth north or south of the Equator; used to measure degrees of latitude.
- 4 Place where a stream or river flows into a larger body of water.
- 5 A series of connected mountains.
- 9 Land lying next to a sea or ocean.
- 11 One of the four major bodies of salt water that surround the continents.
- 12 Characteristic of a place occurring naturally, such as a landform, body of water, climate pattern, or resource.
- 16 Stream of either cold or warm water that moves in a definite direction through an ocean.
- 18 Land with steep sides that rises sharply (1,000 feet or more) from surrounding land; generally larger and more rugged than a hill.
- 19 Large body of water completely or partly surrounded by land.
- 20 Position on land level with surface of nearby ocean or sea.
- 21 Body of land jutting into a lake or ocean, surrounded on the three sides by water.

Down

- 1 Area of level land, usually at a low elevation and often covered with grasses.
- 2 Small river or stream that flows into a larger river or stream; a branch of a river.
- 4 Pointed top of a mountain.
- 6 Changes in elevation over a given area of land.
- 7 Area of low land between hills or mountains.
- 8 Line of the global grid running from the North Pole to the South Pole through Greenwich, England; starting point for measuring degrees of east and west longitude.
- 9 Narrow stretch of water joining two larger bodies of water.
- 10 Mountain created as liquid rock or ash erupts from inside the earth.
- 12 Area of flat or rolling land at a high elevation and often covered with grasses.
- 13 Place where a river or stream begins, often in highlands.
- 14 Direction opposite the flow of a river; toward the source of a river or stream.
- 15 Body of water between a coastline and one or more islands off the coast.
- 17 Large natural stream of water that runs through the land.
