

Geography Terms Crossword Puzzle 3

Across

- 1 A wide, treeless plain.
- 5 A narrow, deep valley with steep sides.
- 6 Natural elevation of the earth's surface with steep sides and greater height than a hill.
- 7 Soft wet, low lying, grassy land that serves as a transition between water and land.
- 9 A large, level area of grassland with few or no trees.
- 11 A large, powerful waterfall.
- 13 An opening in the earth, usually raised, through which gasses and lava escape from the earth's interior.
- 16 A body of land surrounded by water.
- 20 A wide, flat topped mountain with steep sides. Larger than a butte.
- 21 Part of an ocean or lake partially enclosed by land.
- 22 A dry area where few plants grow.
- 23 A large ice mass that moves slowly down a mountain or over land.

Down

- 1 A narrow strip of water connecting two large bodies of water.
- 2 A broad, flat area of land higher than the surrounding land.
- 3 The place where a river flows into a lake or ocean.
- 4 Flat land near the edges of rivers formed by mud and silt deposited by floods.
- 8 A sheltered area of water, deep enough for docking ships.
- 10 Level of the ocean's surface, used as a reference point when measuring the height or depth of the earth's surface.
- 12 The steep, almost vertical edge of a hill, mountain, or plain.
- 14 A spot of fertile land in a desert, fed by water from wells or underground springs.
- 15 Low land between hills or mountains.
- 17 a triangular area of land formed from deposits at the mouth of a river.
- 18 An area of land that is saturated by water.
- 19 A pointed piece of land extending into an ocean or lake.
- 21 A raised, flat area of land with steep cliffs, smaller than a mesa.
