Find all words below. Words can be found across, up and down, and diagonally.

- |                     |                  |                      |
|---------------------|------------------|----------------------|
| Area                | Circumference    | Complementary        |
| Congruent Figures   | Diameter         | Equilateral Triangle |
| Isosceles Triangle  | Parallel Lines   | Perimeter            |
| Perpendicular Lines | Polygon          | Polyhedron           |
| Prism               | Pyramid          | Regular Polygon      |
| Right Angle         | Scalene Triangle | Similar Figures      |
| Skew Lines          | Straight Angle   | Supplementary        |
| Surface Area        | Vertical Angles  | Volume               |
