Solve.

hot dog = $1.10	cola = $1.00
order of French-fries = $1.10	ice cream cone = $1.00
hamburger = $2.30	milk shake = $2.80
deluxe cheeseburger = $3.20	taco = $2.30

1. **$2.10** What is the total cost of a cola and a hot dog?

2. **$3.63** What is the total cost of an ice cream cone and a hamburger if there is a ten percent sales tax?

3. **$2.20** What is the total cost of a cola and an ice cream cone if the sales tax is ten percent?

4. **$14.50** If Steven buys a taco and a deluxe cheeseburger, how much change will he get back from $20.00?

5. **$6.00** What is the total cost of a deluxe cheeseburger and a milk shake?

6. **$2.00** If Sandra wanted to buy a cola and an ice cream cone, how much would she have to pay?

7. **$2.31** What is the total cost of a cola and a hot dog if there is a ten percent sales tax?

8. **$4.00** If Audrey buys a milk shake and a deluxe cheeseburger, and if she had $10.00, how much money will she have left?

9. **$3.74** If Sharon wanted to buy a hot dog and a taco, how much would she have to pay if there was a ten percent sales tax?

10. **$2.31** If David wanted to buy a hot dog and an ice cream cone, how much would he have to pay if there was a 10% sales tax?

11. **$5.61** What is the total cost of a taco and a milk shake if the sales tax is 10%?

12. **$2.42** Allan purchases a hot dog and an order of French-fries. How much money would he need if the sales tax was ten percent?
